Notes:

- a) In **1999/00**, two Past Presidents shared the duties of President. This was due to the planned progression from President-Elect to President failing when the person in question was transferred interstate by his company.
- b) In **2006/07**, Paul Kearney was President-Elect for 2007/08 but the incumbent President was forced to move overseas when the company he ran in Burnie lost an essential contract. Paul took over in October 2006 and later agreed to continue in his 'rightful' year of 2007/08 as well.
